8023-77-6

Origin
India

EINCS
288-920-0

Scent
Spicy

Customs Tariff Code
3301 9030 00

Colour
Red

Skin Benefits

Chilli Oleoresin is known for its warming and stimulating properties. It can help promote blood circulation, provide temporary pain relief, and offer anti-inflammatory benefits. The oleoresin has a spicy and pungent aroma that adds a warming sensation to personal care products. Chilli Oleoresin is often used in lip balms, massage oils, body oils, soaps, hair care products, and pain relief formulations. It contains capsaicin, which contributes to its analgesic and anti-inflammatory effects. Capsaicinoids, the active components of chilli oleoresin, are responsible for the heat and spicy sensation it provides.

Hair Benefits

Chilli Oleoresin can provide a warming and stimulating sensation to the scalp. Its circulation-boosting properties can help promote hair growth and enhance scalp health. Additionally, Chilli Oleoresin has potential anti-inflammatory effects, which can help soothe scalp irritations and reduce inflammation. It can be incorporated into hair care products such as hair oils, massage oils, and scalp treatments to invigorate the scalp and promote overall hair health.

Functionality

The attached information is considered to be correct. Please be aware that detail can change and we encourage clients to update their technical records regularly via www.oand3.com/products/.

The information is not and should not be considered a guarantee or warranty, or a part of our contractual or other legal obligations. It is the ultimate responsibility of the client to pre-approve & assess the safety and suitability of the listed ingredient before use in any final formulations. We encourage carrying out additional tests if necessary. The information is not to be disclosed to others, reproduced or transmitted in whole or in part without permission from O&3.

Anti-Inflammatory

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

Energising

Provides a boost of energy and revitalisation, helping to combat fatigue and lethargy. This can lead to a refreshed and invigorated appearance, both for the skin and hair.

Antimicrobial

With potent antimicrobial features, it effectively combats harmful microbes, preventing infections and promoting skin health. It supports a clean and clear complexion, safeguarding against unwanted bacteria.

Warming

Introduces a gentle warming sensation to the skin, providing a comforting and soothing effect. This property is ideal for products designed to promote relaxation, especially in massage oils or creams
