Skin Benefits

Hydrogenated Coconut Oil (Food Grade) is a versatile ingredient used in baking, confectionery, skin care products, hair care products, and soap making. The oil has a neutral aroma and a thick texture, making it suitable for various applications. Hydrogenated Coconut Oil is moisturising and emollient, helping to soften and condition the skin. It can also act as a thickening agent and a film-forming ingredient. In hair care products, it provides conditioning benefits and helps to add texture. Additionally, it can be used as a fragrance fixative.

Hair Benefits

Hydrogenated Coconut Oil (Food Grade) can provide moisturising benefits to the hair and scalp. Its emollient properties help to soften and condition the hair, reducing dryness and improving manageability. Additionally, Hydrogenated Coconut Oil (Food Grade) can act as a film-forming ingredient, providing a protective barrier that helps lock in moisture and protect the hair from external damage. It can be incorporated into hair care products such as conditioners, hair masks, and styling products to nourish and enhance the appearance of the hair strands.

Functionality

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.
