Skin Benefits

Organic Unrefined Coconut Oil, also known as Virgin Coconut Oil, is derived from fresh coconuts and retains the natural goodness of the coconut. It is commonly used in cooking, baking, skin care products, hair care products, and soap making. The oil has a coconutty aroma and a creamy texture, making it a versatile ingredient. Organic Unrefined Coconut Oil is moisturising and nourishing, helping to soften and hydrate the skin. It is often used as a carrier oil for essential oils and as a hair conditioning agent. Additionally, it can be used as a makeup remover due to its gentle yet effective cleansing properties.
