Extraction process

Refining is an extraction method that purifies oils by removing impurities and undesirable elements. It includes techniques such as degumming, neutralisation, bleaching, and deodorisation to enhance the quality, stability, and versatility of the oil for various applications.

The attached information is considered to be correct. Please be aware that detail can change and we encourage clients to update their technical records regularly via www.oand3.com/products/.

The information is not and should not be considered a guarantee or warranty, or a part of our contractual or other legal obligations. It is the ultimate responsibility of the client to pre-approve & assess the safety and suitability of the listed ingredient before use in any final formulations. We encourage carrying out additional tests if necessary. The information is not to be disclosed to others, reproduced or transmitted in whole or in part without permission from O&3.

Skin Benefits

Refined Cottonseed Oil is a versatile oil that can be used for cooking, salad dressings, baking, frying, soap making, massage oils, and hair care products. It has a neutral, mild aroma and a yellow color. In cooking, Refined Cottonseed Oil is known for its high smoke point and mild flavor, making it suitable for various culinary applications. It is an emollient oil that provides moisturization and conditioning effects, making it beneficial for skin and hair care formulations. The oil is rich in linoleic acid, an essential fatty acid that supports skin health and helps maintain the skin's natural barrier function.

Functionality

Anti-Aging

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.

Hair Benefits

Refined Cottonseed Oil can provide moisturising and conditioning benefits to the hair. Its emollient properties help to hydrate and soften the hair, reducing dryness and improving manageability. Additionally, the neutral and mild aroma of Refined Cottonseed Oil makes it suitable for use in hair care products. It can be incorporated into hair oils, leave-in conditioners, and styling products to provide moisture and enhance the sensory experience.

Anti-Inflammatory

Powerful anti-inflammatory properties help soothe and calm irritated skin, reducing redness and inflammation, whilst providing relief from discomfort and promoting a balanced complexion for healthier-looking skin.

Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.
