Extraction process

Cold-pressed extraction is a method used to extract natural oils from various plant-based sources. It involves applying mechanical pressure to the source material without the use of heat or chemicals, resulting in a pure and unrefined oil.

Skin Benefits

Cold Pressed Macadamia Nut Oil carries a light and nutty scent, reflecting its natural origin. It has moisturising and regenerative properties, nourishing and replenishing the skin. The oil is commonly used in moisturisers, serums, body oils, massage oils, and hair oils to provide hydration and nourishment, leaving the skin and hair feeling soft and hydrated.

Hair Benefits

Cold Pressed Macadamia Nut Oil can contribute to a nourishing and moisturising hair care routine. Its regenerative properties can help improve the condition of the hair strands, reducing dryness and promoting overall hair health. Incorporating Cold Pressed Macadamia Nut Oil into hair oils, serums, and treatments can provide deep hydration and nourishment, leaving the hair feeling soft and moisturised.

Functionality

Anti-Aging

Packed with antioxidants, it helps fight free radicals and reduce the signs of ageing. It promotes the production of collagen, improving skin elasticity and firmness, and diminishing the appearance of fine lines and wrinkles.

Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.

Skin Tightening

Promotes skin elasticity and firmness, reducing the appearance of wrinkles. It helps maintain a youthful and lifted look by supporting collagen production, giving the skin a tighter and more toned feel.

Easily-Absorbed

Quickly absorbs into the skin without leaving a greasy residue. Lightweight and ensures fast penetration, delivering essential nutrients and hydration for a smooth and nourished complexion.

Moisturising & Hydrating

Deeply moisturising, helping to hydrate and nourish the skin and hair. It forms a protective barrier, preventing moisture loss and leaving the skin and hair feeling soft and supple.
