Extraction process

Cold-pressed extraction is a method used to extract natural oils from various plant-based sources. It involves applying mechanical pressure to the source material without the use of heat or chemicals, resulting in a pure and unrefined oil.

Skin Benefits

Cold Pressed Mustard Seed Oil has an invigorating and pungent aroma, extracted from the seeds of the mustard plant using a cold pressing method. It has stimulating and warming properties, making it a valuable ingredient in aromatherapy blends, massage oils, and hair care formulations. The oil invigorates the senses and promotes a sense of vitality, providing an awakening and revitalising experience.

Hair Benefits

Cold Pressed Mustard Seed Oil can contribute to an invigorating and stimulating hair care routine. Its spicy and pungent fragrance can awaken the senses and provide a revitalising experience. Incorporating Cold Pressed Mustard Seed Oil into hair oils, scalp treatments, and hair masks can help invigorate the scalp, improve circulation, and promote hair vitality, leaving the hair feeling refreshed and energised.

Functionality
