Product Page Intro	Introducing Sunflower, Lecithin, a versatile emulsifier derived from sunflower oil. It is a natural, plant-based ingredient that is known for its ability to stabilise emulsions and create smooth, creamy textures in lotions, creams, and other personal care products. In addition to its emulsifying properties, Sunflower Lecithin also offers nourishing benefits for the skin. It is rich in essential fatty acids, including linoleic acid, which helps to maintain the skin's barrier function and prevent dryness. Sunflower, Lecithin also contains phosphatidylcholine, a nutrient that plays a role in cell regeneration and repair. Sunflower, Lecithin is a gentle and non-irritating ingredient that is suitable for all skin types and is also a sustainable choice, as it is derived from a renewable source. Order a sample or request a quote today!
Product Status	Pure & Natural.
Pyrrolizidine Alkaloids Status	O&3 can confirm that Sunflower, Lecithin is free from any Pyrrolizidine Alkaloids.
REACH Status	O&3 can confirm that Sunflower, Lecithin supplied is exempt as per Annex IV & V according to EU regulations 1907/2006.
