The Oil Factor	O&3 presents Babassu Oil, Refined Organic. The Brazilian born Babassu tree, this fruit is harvested post falling from the tree, it can fall from as high as 25m! The tree and harvest commonly occurs on the coastal regions of Brazil. The kernels are removed & taken for cold pressed accordingly, we then refine it to clean the crude oil up into a useable state. Babassu oil has similar benefits to that of Coconut oil, just more fastidious & more expensive! The kernel can contain up to 60% oil so its highly enriched in lots of goodness, notably its high saturated fat content. This product works superbly as a carrier oil, just a faint oily aroma so essential oils sit perfectly when blended with this Brazilian Babassu.
Functionality	Very similar benefits to that of Coconut oil. Brazilians still use this product to heal skin scars due to its high saturated fat content. A super oil for massage & therapy as it serves as a super carrier whilst leaving the skin silky smooth.
